

# Lytton & Region Economic Recovery Plan

## Using Data for Disaster Planning and Recovery

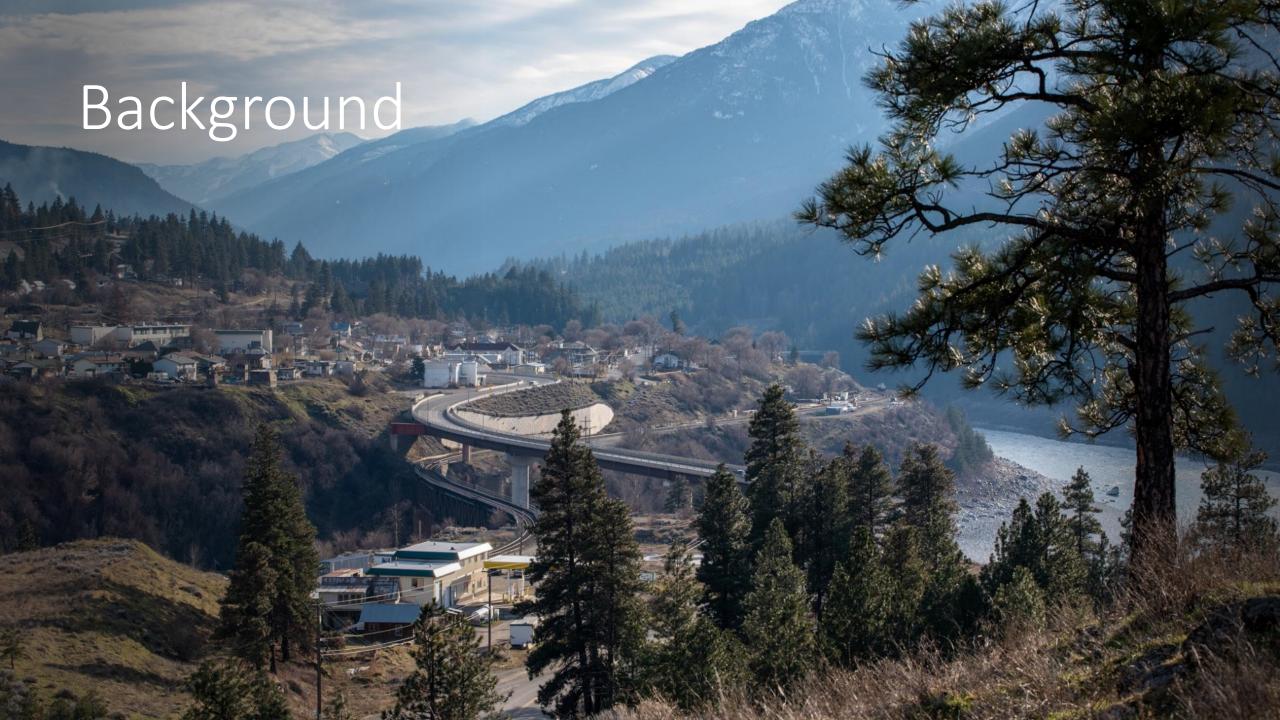

Prepared for: ETSI BC DATA 201 Series - May 11, 2023

The Lytton Story in a Nutshell

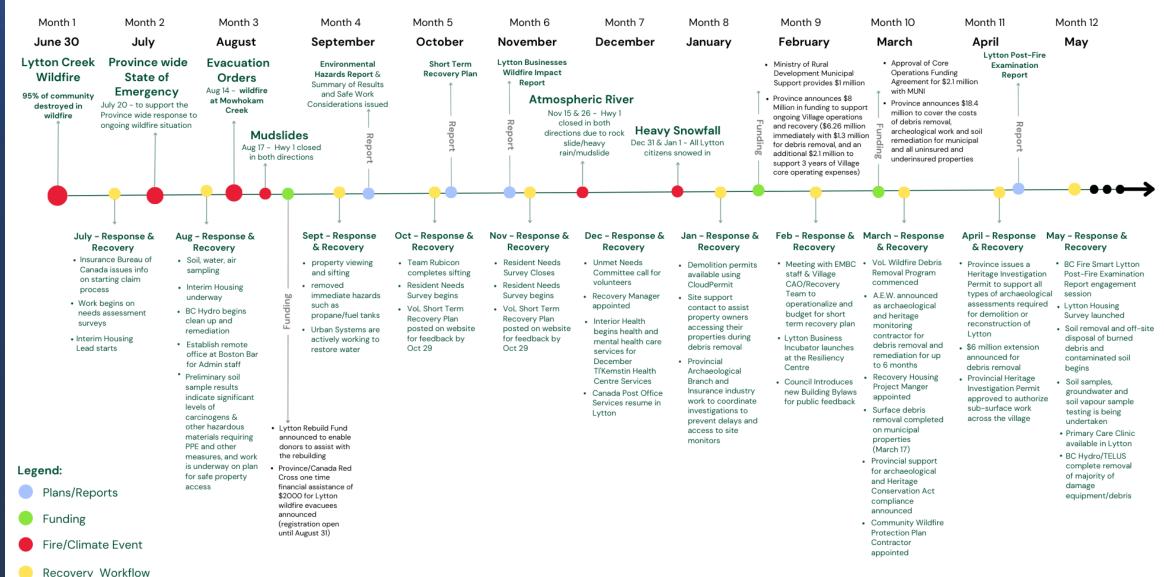

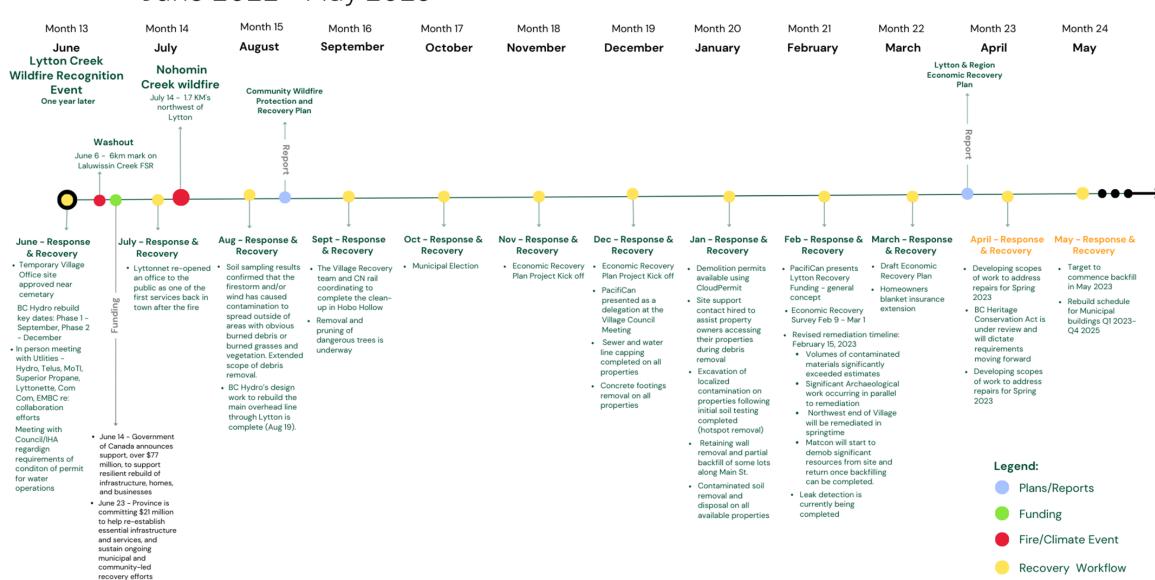

## **Recovery Timeline**

June 2021 - May 2022

## **Recovery Timeline**

June 2022 - May 2023

## Project Overview (Budget)

- In December 2021, the provincial government announced a \$1 million grant to the Village of Lytton, having virtually no tax base with the village mostly destroyed. The grant was to be used to attempt to restart the local economy.
- The Village of Lytton engaged the services of O'Leary and Associates in late 2022 to create an **Economic Recovery Plan** for the region.

## Survey

- Adaptive survey
- Multiple formats (online & print)

Village of
1 del
LUITOU

Which area would you say you are from?
Within the Village of Lytton (Municipality)
○ In the region surrounding the Village of Lytton (TNRD)
TI'Kemstin First Nation (Lytton First Nation) Reserve
Other (please specify):
Are you a business owner?
○ Yes
○ No
No but I am interested in starting a business in Lytton and surrounding region

#### Lytton & Region Economic Recovery Plan

Project Update
January 20, 2023

#### **Project Background**

The Lytton & Region Economic Recovery Plan was commissioned in 2022 with the contract awarded to O'Leary & Associates. The project got underway in December 2022 with an anticipated Final Report to be presented to Council March 31, 2023.

The objective of the Lytton & Region Economic Recovery Plan project is to facilitate and present meaningful ground-up solutions to support Lytton and Regions Economic Recovery – built from the needs and insights voiced by the community.

#### **Project Update**

Stakeholder interviews have been underway with area businesses, organizations, residents, and elected officials.

These interviews will help inform the Economic Recovery Survey, which is the next step of engagement with Lytton and Region businesses, organizations and residents.

The project team visited Lytton Jan 16 to film a short video to support the project and meet with community members.

## Hours of community engagement

Stakeholder Interviews

#### Next Steps

Key Stakeholder Interviews & Survey

Development

Timeline

Late Jan - Early Feb Recovery Survey Open

#### February

Survey Validation & Data Analysis

#### March

Prepare & Present Final Report In the coming weeks, all community members will be asked to participate in the Economic Recovery survey – participation is key to ensure the Economic Recovery Plan for the area reflects the needs and desires of the community.

Hearing directly from businesses, organizations, and residents will help provide valuable data and insights that will guide the creation of an Economic Recovery Plan which will include short-, medium- and long-term priorities with recommendations on how to move forward.

Email communication will be shared with all those interviewed to date. Collaboration with the Chamber and the Village will also be utilized to help share project updates and connect community members to participate in the Economic Recovery Survey.

Project updates can be found on the Village of Lytton website LYTTON AND REGION ECONOMIC RECOVERY PLAN | VILLAGE OF LYTTON

#### Lytton & Region Economic Recovery Plan

Project Update

#### Project Update February 22, 2023

The Economic Recovery Survey will remain open for one more week - <u>participate online!</u>

All community members are invited to participate in the Economic Recovery survey.

By participating in the survey, you will help provide valuable insights to guide the Lytton and Region Economic Recovery Plan.

The project team met with the Nlaka'pamux Nation Tribal Council's Strategic Initiatives & Governance Lead to share details on the Lytton & Region Economic Recovery Project. A briefing note about the project has been shared with the NNTC.

#### Participate in the Survey

Simply point the camera of your smartphone to the QR code to participate in the online survey or visit: https://OAA.checkbox.ca/Lytton

Anyone who would like a paper copy of the survey mailed to them can call 250-819-1824 and provide a mailing address.

#### 🌉 Survey Participation To Date

- In the region surrounding the Village of Lytton (TNRD)

   Other
  - ■Tl'Kemstin First Nation (Lytton First Nation) Reserve
  - Within the Village of Lytton (Municipality)

## 30% 44% 16%

#### **Next Steps**

The Survey will be open until the end of February.

Findings from the Business Survey will be shared with the community/participants for review and validation shortly after the survey closes.

What kind of data did we collect?

## Data Considerations

- Small population size
- Humanizing data
  - requires an approach that is more qualitative than quantitative, and results in more inclusivity and transparency
  - Gap between data points (numeric value) and the human experience
  - ROI for people's time of engagement and generating data practical & meaningful outcomes
- Facilitate meaningful connection with people
  - Having relatable experience
  - Make sure people feel like their voices matter and are heard
  - Making it clear that we are here to help not just behind a desk in Victoria

Case Study "take-aways"

## Challenge Biases & Assumptions

- There are shared learnings with many communities that have experienced devastating disasters, but no two communities are the same – it is not a copy and paste exercise!
- There were biases held on data beyond ourselves
  - various levels of gov't interested in seeing how data applies to their mandates and goals, not necessarily to what the community is voicing (and captured as data) as the true need.
- Delays, delays and even more delays!
  - The residents were fed-up, stressed out and angry by the time we arrived
- Trust
  - Consultants parachuting in and out and only there for a pay cheque

## Challenges

- Constant change & timing
  - Leadership changes Election & new Council & CAO transitions
  - New challenges and obstacles uncovered weekly
- Multiple stakeholders operating independently
  - varying interests, communication channels causing confusion and frustration for people
- Capacity to implement a plan/strategy
- Perception of what comprises an economy
  - "Home based businesses don't count"
  - "Businesses outside Village boundaries don't count"

## Outcomes

- Final Report Recovery Work
   Plan and Recovery Needs
  - Village of Lytton website
  - Key Recommendations based on community's needs
- Opportunities to better refine future recovery processes

Lytton & Region Economic Recovery

# Recovery Work Plan and Recovery Needs:

April 25<sup>th</sup>, 2023

### Outcomes

#### How this Data was to Critical to Support Decision Making:

- Using Data to Understand where things were at
  - Number of businesses that had insurance?
  - Insurance shortfall?
  - How many people plan on coming back?
  - Biggest obstacles for economic rebuild?
- Using this data to access further support
  - The Village can't deliver on all of the needs
  - Organizations want to help, but don't know how
  - Funders (Pacific Economic Development Canada) have funding, but need to identify the "gaps"
- Using the Data for decision making
  - There are limited resources (\$, capacity, time) and a very large list of needs
  - This data can prioritize the biggest impact
  - This data can be used to help understand timing and milestones (seasonal economy)
  - What are things that can be done now to improve future resilience or help other communities?
  - Provincial advocacy work (policy development)

## Thank you!
